## Education

### Noida Institute of Engineering and Technology (NIET)

Bachelor of Technology in Computer Science and Engineering with AIML

Greater Noida, U.P.

2022 - Present

### Indian Institute Of Technology – Madras (IIT–Madras)

BS Degree in Data Science and Applications(Foundation)

Chennai, Tamil Nadu

2024 - Present

## Relevant Coursework

- |                           |                    |                |                       |
|---------------------------|--------------------|----------------|-----------------------|
| – Data Structures         | – Machine Learning | – Python       | – Web Development     |
| – Artificial Intelligence | – Java             | – Data Science | – Algorithms Analysis |

## Technical Skills

- **Languages:** Python, Java, HTML, CSS, JavaScript
- **Libraries:** React.js, Bootstrap, Pandas, Numpy, Matplotlib
- **Frameworks:** Node.js, Streamlit, Flask , Express, Django
- **Databases:** MongoDB, Firebase, Sqlite
- **Developer Tools:** VS Code, Git, Jupyter Notebook, Netlify, Vercel
- **Soft Skills:** Communication, Teamwork, Problem Solving, Leadership, Adaptability

## Experience

### CELEBAL TECHNOLOGIES.

Data Science Intern

Remote

May 2025 - July 2025

- \* Assisted in building predictive models and performed data preprocessing using Python, Pandas, and Scikit-learn.
- \* Contributed to exploratory data analysis (EDA) and visualizations to derive actionable insights from structured and unstructured data.
- \* Utilized SQL and MongoDB to extract, transform, and manage data for real-time analytics and reporting solutions.

### SUVEN CONSULTANTS AND TECHNOLOGY PVT LTD.

Front-End Developer Intern

Remote

July 2024 - Aug 2024

- \* Designed and enhanced responsive web pages using **HTML, CSS, JavaScript, and React.js**
- \* Implemented **JavaScript validation** and dynamic content updates using **AJAX and jQuery**.
- \* Expanded a dynamic dashboard that improved data visualization for users..

### CODSOFT.

Python Intern

Remote

July 2023 - Aug 2023

- \* Improved and optimized Python scripts for **data processing, automation, and web scraping**.
- \* Implemented **API integrations** to fetch and process real-time data.
- \* Performed **data analysis and visualization** using **Pandas, NumPy, and Matplotlib**.

## Projects

### Multiple Disease Prediction System | Python, Machine Learning, Streamlit

- \* Developed and deployed a web application using Python, machine learning, and Streamlit to predict multiple diseases (diabetes, heart disease, Parkinson's) from user health data.
- \* Utilized classification algorithms and real-world datasets to deliver accurate, real-time disease risk assessments through an intuitive interface.
- \* Designed a scalable, modular system enabling future integration of additional disease models and continuous performance improvement.

### Hand Gesture Volume Controller | Python, OpenCV, MediaPipe, PyAutoGUI

- \* Developed a **gesture-based volume control system** using **computer vision** and **hand tracking algorithms**.
- \* Utilized **OpenCV** and **MediaPipe** to detect hand gestures and track finger movements.
- \* Integrated **PyAutoGUI** to adjust system volume based on the distance between fingers.
